

President Trump

I'm sure you are all aware of the present situation with regard to President Trump's indictment by the District of Attorney for Manhattan. From what I hear this is purely an attempt to silence President Trump as he campaigns for a second term as president. So far we do not know the extent or types of charges, as the indictment has been sealed. However, from what I have read the indictment is legally flawed. I am sure we are all concerned with the precedent being set. As the Democrat party members say, no one is above the law. I hope they realize that this will apply to all Presidents past and future.

I remember when the Democrats made changes to the process to nominate and approve Supreme Court justices. It came back to bite them in the a**. This present issue may also have unintended consequences for the Democrats.

I believe I speak for most of you when I express my indignation at this apparent miscarriage of justice. Whether or not you support President Trump, you should be concerned for the precedent this sets for future politicians.

Shark Tank

I am sure most of you have or will watch The Shark Tank show. Unfortunately, this has caused many products that have not been on the show to be advertised as having been on the show in the past. This has caused problems for consumers who rely on the endorsement of products shown on the show. So you can go to www.allsharktankproducts.com to verify the accuracy of advertisements.

Easter/Passover
