

Minutes of the General Meeting of the Sun City Grand Republican Special
Interest Group, aka Grand Republicans
September 17, 2022

After the invocation by President Phil Axelrod and the Pledge of Allegiance led by John Cross Phil introduced Tom Zades who is the person that sends reminders to members of upcoming events. Many members wanted to see the face behind the words.

Phil announced:

There will be a Happy Hour at the Tivoli Gardens on September 28 from 2-6pm.

The Soup Kitchen at the Church on the Green will have luncheon from 10:30am - 12:30pm on October 27 and a Spaghetti Dinner next Sunday for \$12.00. Both events are to help support Mexican woman.

Austin Roe from Debbie Lesko's office advised they can help with governmental issues such as the IRS, social security etc. They have already saved 11 million dollars for their constituents.

He said that:

- Debbie recently visited the border to assess security and has submitted many bills with solutions to help secure the border.
- She has submitted proposed solutions to help with the water supply in AZ and to reduce usage.
- She has contacted the Secretary of Education to suggest solutions for the transgender student issue. Contact her at lesko.com.gov

Jan Shank introduced Nick Damask who teaches classes on Contemporary Political Terrorism. He advised that:

- ✓ NY is planning on pulling down the statue of Thomas Jefferson, defunding the police, changing misdemeanor theft from \$20 to \$900. The word misdemeanor cannot be used anymore.
- ✓ Governor Newsom from California is running for President in 2024. He believes all of this plus that everything is racist.
- ✓ There are 8,000 illegals coming over the border every day.

- ✓ Governor DeSantis of Florida sent 50 illegals to Martha's Vineyard in Massachusetts (a sanctuary city with signs all over to protect immigrants) and the people couldn't wait to get them off the island.
- ✓ The democrats who control the House and Senate, hate republicans for their honesty.
- ✓ Today is Constitution Day. He will have classes in the fall and hopes all will participate.

Jan requested everyone vote in person on Election Day as it should cut down on fraud. If you have a mailed in ballot, bring it to the polling station and get it "spoiled" meaning they give you another ballot and get rid of the old one. The October meeting will have AZ Enterprise at 9am with the propositions that are on the ballot in November.

Loren Spivack - Free Market Warrior - spoke on the direction of the nation:

Understanding the left and their principals - they have NO principals. Principals apply to everyone all the time like the 10 Commandments. The left got their movement started on campus with the "freedom of speech movement". It was only free speech when it was their speech. They have lots of teachers with no principles: 42% of American Universities are segregated; 22% have segregated graduation ceremonies. These are consequences of having no principles. The left tends to throw their friends (supporters) under the bus in pursuit of the "next thing."

Sweden was the capital of world in support of women. Now it is the Rape Capital of the world, due to their lax immigration policies. 95% of all rapes are by immigrants, per their official reports. How do they handle this? Stop providing reports!

Spivak believes women's sports are coming to an end because men who say they are women have different bodies with more strength, speed, height etc. Imagine a basketball team of these men and how much they could win over the women. All coaches and owners would go this route to win.

Why are they doing this? Power over you - Control. If they can control all you do and say, they can control the world.

Calvin Coolidge's son was playing and got a blister which got infected and spread to his bloodstream causing death. Even the homeless today would be saved from such a death. They can get help with everything.

The Left controls all of our books, vaccines, jobs, what you eat, etc. The Left only cares what your life can mean for *them*. Hitler hated polls and wanted minimum education. German lives mattered.

They want power but if they can't agree with each other, they throw the previous leader under the bus. Without principals the country will be run by force.

The Constitution has principles:

1. freedom of speech (so endangered.) USA is the only country in history to have principles. The left started with "hate speech.. In Europe with their major immigration, you were put in prison if you were against what the "powers that be" wanted and you didn't comply. In England dozens a day were put in prison. In England, if you say immigrants bring crime to England it is a 2 year prison term. Canada has two years in prison for disagreeing.

2. Judicial system - justice Antonin Scalia was once asked if he had any regrets on his judgements and he said "Yes, of course, because I had to go along with the Constitution and not my personal feelings." When Justice Ginsburg was asked that question she said the complete opposite, as she was for her party and not the law. When asked what reform goals you have for the year, Scalia said justice doesn't have goals. Ginsburg described the goals of the Democrat party.

In the past trespassing at the Capital was a fine of \$50 with no court proceedings at all. Left believes it depends on what party trespasses.

3. Capitalism - Young Americans believe in 137 economic systems.

Capitalism: Leave people alone to pursue interest; simple rules with principles: Can't hurt prayer, can't lie, can't steal - all apply to everyone.

Socialism is applying their will on everyone else. Scalia said promising everything free delivers nothing. Capitalism has no promises, except if you don't work, you don't eat, but it has delivered the greatest standard of living in the world.

50/50 had 4 prizes. Meeting adjourned at 11:30 a.m.

Respectfully submitted, Gerri Staffieri, Secretary
